Marks are one of the collector's most important tools when it comes to identifying and dating antiques. Of course, it is important to understand that they should never be relied upon completely, as many have been copied or faked. What you should rely on is experience. Whether you are buying at auction, flea market or antique shop this is the book you need to identify and date what you find. More than 6,000 marks are organized for quick, at-a-glance reference with full-colour sections on silver, Sheffield plate, bronze figures, ceramics, glass, costume jewellery, toys and dolls.
