Of Green Leaf, Bird, and Flower Elisabeth R. Fairman 2014 Highlighting an enduring interest in natural history from the 16th century to the present, this gorgeous book explores depictions of the natural world, from centuries-old manuscripts to contemporary artists' books. It examines the scientific pursuits in the 18th and 19th centuries that resulted in the collecting and cataloguing of the natural world. It also investigates the aesthetically oriented activities of self-taught naturalists in the 19th century, who gathered flowers, ferns, seaweed, feathers, and other naturalia into albums. Examples of 20th- and 21st-century artists' books, including those of Eileen Hogan, Mandy Bonnell, and Tracey Bush, broaden the vision of the natural world to incorporate its interaction with consumer culture and with modern technologies. Featuring dazzling illustrations, the book itself is designed to evoke a fieldwork notebook, and features a collection pocket and ribbon markers.

Commercial Law Applied David E. Robinson 2012-08-01 The principles, maxims and precepts of Commercial Law are eternal, unchanging and unchangeable. They are expressed in the Bible, both in the Old Testament and in the New. The law of commerce -- unchanged for thousands of years -- forms the underlying foundation of all law on this planet; and for governments around the world. It is the law of nations, and of everything that human civilization is built upon. This is why Commercial Law is so powerful. When you operate at the level of

Commercial Law, by these precepts, nothing that is of inferior statute can overturn or change it, or abrogate it, or meddle with it. It is the fundamental source of all authority, power and functional reality.

Gauguin's Paradise Remembered Alastair Wright 2010 In 1891, Paul Gauguin (1848–1903) traveled to Tahiti in an effort to live simply and to draw inspiration from what he saw as the island's exotic native culture. Although

the artist was disappointed by the rapidly westernizing community he encountered, his works from this period nonetheless celebrate the myth of an untainted Tahitian idyll, a myth he continued to perpetuate upon his return to Paris. He created a travel journal entitled *Noa Noa* (fragrant scent), a largely fictionalized account that recalled his immersion into the spiritual world of the South Seas. To illustrate his text, Gauguin turned for the first time to the woodcut medium, creating a series of ten dark and brooding prints that he intended to publish alongside his journal—a publication that was never realized. The woodcuts crystallized important themes from his work and are the focus of this major new study. *Gauguin's Paradise Remembered* addresses both the artist's representation of Tahiti in the woodcut medium and the impact these works had on his artistic practice. Through its combined sense of immediacy (in the apparent directness of the printing process) and distance (through the mechanical repetition of motifs), the woodcut offered Gauguin the ideal medium to depict a paradise whose real attraction lay in its remaining always unattainable. With two insightful essays, this book posits that Gauguin's *Noa Noa* prints allowed him to convey his deeply Symbolist conception of his Tahitian experience while continuing his experiments with reproductive processes and other technical innovations that engaged him at the time.

Reading Law Antonin Scalia 2012 In this groundbreaking book, Scalia and Garner systematically explain all the most important principles of constitutional, statutory, and contractual interpretation in an engaging and informative style with hundreds of illustrations from actual cases. Is a burrito a sandwich? Is a corporation entitled to personal privacy? If you trade a gun for drugs, are you using a gun in a drug transaction? The authors grapple with these and dozens of equally curious questions while explaining the most principled, lucid, and reliable techniques for deriving meaning from authoritative texts. Meanwhile, the book takes up some of the most controversial issues in modern jurisprudence. What, exactly, is "textualism?" Why is "strict construction" a bad thing? What is the true doctrine of "originalism?" And which is more important: the spirit of the law, or the letter? The authors write with a well-argued point of view that is definitive yet nuanced, straightforward yet sophisticated.

Conflict of Interest in Medical Research, Education, and Practice Institute of Medicine 2009-09-16 Collaborations of physicians and researchers with industry can provide valuable benefits to society, particularly in the translation of basic scientific discoveries to new therapies and products. Recent reports and news stories have, however, documented disturbing examples of relationships and practices that put at risk the integrity of medical research, the objectivity of professional education, the quality of patient care, the soundness of clinical practice guidelines, and the public's trust in medicine. *Conflict of Interest in Medical Research, Education, and Practice* provides a comprehensive look at conflict of interest in medicine. It offers principles to inform the design of policies to identify, limit, and manage conflicts of interest without damaging constructive collaboration with industry. It calls for both short-term actions and long-term commitments by institutions and individuals, including leaders of academic medical centers, professional societies, patient advocacy groups, government agencies, and drug, device, and pharmaceutical companies. Failure of the medical community to take convincing action on conflicts of interest invites additional legislative or regulatory

measures that may be overly broad or unduly burdensome. *Conflict of Interest in Medical Research, Education, and Practice* makes several recommendations for strengthening conflict of interest policies and curbing relationships that create risks with little benefit. The book will serve as an invaluable resource for individuals and organizations committed to high ethical standards in all realms of medicine.

The Negro Motorist Green Book Victor H. Green The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Do Guns Make Us Free? Firmin DeBrabander 2015-01-01 Possibly the most emotionally charged debate taking place in the United States today centers on the Second Amendment of the Constitution and the rights of citizens to bear arms. In the wake of the Sandy Hook school massacre in Connecticut, the gun rights movement headed by the National Rifle Association appears more intractable than ever in its fight against gun control laws. The core argument of Second Amendment advocates is that the proliferation of firearms is essential to maintaining freedom in America, providing private citizens with a defense against possible government tyranny, and safeguarding all our other rights. But is this argument valid? Do guns indeed make us free? Firmin DeBrabander examines claims offered in favor of unchecked gun ownership in this insightful and eye-opening analysis, the first philosophical examination of every aspect of a contentious, uniquely American debate. By exposing the contradictions and misinterpretations prevalent in the case presented by gun rights supporters, this provocative volume concludes that an armed society is not a free society but one that ultimately discourages and, in fact, actively hinders democratic participation.

Catholics on the Barricades Piotr H. Kosicki 2018-01-09 In Poland in the 1940s and '50s, a new kind of Catholic intended to remake European social and political life—not with guns, but French philosophy This collective intellectual biography examines generations of deeply religious thinkers whose faith drove them into public life, including Karol Wojtyła, future Pope John Paul II, and Tadeusz Mazowiecki, the future prime minister who would dismantle Poland's Communist regime. Seeking to change the way we understand the Catholic Church, World War II, the Cold War, and communism, this study centers on the idea of "revolution." It examines two crucial countries, France and Poland, while challenging conventional wisdom among historians and introducing innovations in periodization, geography, and methodology. Why has much of Eastern Europe gone back down the road of exclusionary nationalism and religious prejudice since the end of the Cold War? Piotr H. Kosicki helps to understand the crises of contemporary Europe by examining the intellectual world of Roman Catholicism in Poland and France between the Church's declaration of war on socialism in 1891 and the demise of Stalinism in 1956.

A Season in Hell and the Illuminations Arthur Rimbaud 1974 Although he abandoned poetry before he was twenty-one years old, and wrote for only five or six years in all, Arthur Rimbaud has had an extraordinary influence on modern poetry. His work helped inspire poetic Symbolism, Dadaism, and Surrealism. Rimbaud dreamed of re-creating life through his words. Not content merely to describe the world, he longed to reorder it through his revolutionary poetry. He rebelled against all forms

of hypocrisy, as well as against conventional concepts of love, morality, religion, and art. He even dreamed of liberating women from "endless servitude." Written a century ago, *A Season in Hell* and *The Illuminations* read like the works of an avant-garde poet of today. In her Introduction dealing with Rimbaud's life and work, Enid Rhodes Peschel discusses his concept of the voyant, the poet-visionary he dreamed of becoming through a "reasoned deranging of all his senses." *A Season in Hell*, which combines autobiography with self-appraisal, vision and hallucination, reflects Rimbaud's tortures in trying to be a voyant. The forty-two poems of *The Illuminations*, kaleidoscopic evocations of a universe in continual evolution, are further evidence of his attempts to reach this transcendent state. Enid Rhodes Peschel has succeeded in not only translating these works but in recreating them. Eye, ear, mind, and heart have all been engaged in her effort to capture the tone and rhythm of Rimbaud's language as well as the quality of his thought. Book jacket.

Bernard Berenson Rachel Cohen 2013-10-28 "Few would have predicted that Bernard Berenson, from a poor Lithuanian Jewish immigrant family, would rise above poverty. Yet Berenson left his crowded home near Boston's railyards and transformed himself into the world's most renowned expert on Italian Renaissance paintings, the owner of a beautiful villa and an immense private library in the hills outside Florence. The explosion of the Gilded Age art market and Berenson's work for dealer Joseph Duveen supported a luxurious life, but it came with painful costs: Berenson hid his origins and, though his attributions remain foundational, felt that he had betrayed his gifts as a critic and interpreter of paintings. This finely drawn portrait of Berenson, the first biography devoted to him in a quarter century, draws on new archival materials that bring out the significance of his secret business dealings and the central importance of several women in his life and work: his sister Senda Berenson; his wife Mary Berenson; his patron Isabella Stewart Gardner; his lover Belle da Costa Greene; his dear friend Edith Wharton, and the companion of his last forty years, Nicky Mariano. Rachel Cohen explores Berenson's inner world and extraordinary visual capacity while also illuminating the historical forces—new capital, the developing art market, persistent anti-Semitism, and the two world wars—that profoundly affected his life" --

Indecent Exposures Sarah Gordon 2015-10-27 Photographer Eadweard Muybridge (1830–1904), often termed the father of the motion picture, presented his iconic *Animal Locomotion* series in 1887. Produced under the auspices of the University of Pennsylvania and encompassing thousands of photographs of humans and animals in motion, the series included more than 300 plates of nude men and women engaged in activities such as swinging a baseball bat, playing leapfrog, and performing housework—an astonishing fact given the period's standards of propriety. In the first sustained examination of these nudes and the remarkable success of their production, wide circulation, and reception, *Indecent Exposures* positions this revolutionary enterprise as central to crucial advancements of the modern era. Muybridge's nudes ushered in new attitudes toward science and progress, including Darwinian ideas about human evolution and hierarchy; quickened debates over the role of photography and scientific investigation in art; and offered innovative perspectives on the human body. This fascinating story is copiously illustrated, and includes many lesser-known
