Crystalline Silica Society for Mining, Metallurgy, and Exploration (U.S.) 1998 Because crystalline silica forms the common mineral quartz as well as less common minerals and because the Hazard Communication Standard affects production and use of many mineral commodities, it is important to understand what crystalline silica is and is not, where it is found and used, and how it is qualitatively and quantitatively identified. This publication addresses these issues. Chapter 1 describes what crystalline silica is and how we come in contact with it. Chapter 2 discusses the regulatory decisions that have created new interest in this widespread substance and presents an overview of the techniques used to determine the presence and abundance of crystalline silica. L Is for Lion Annie Rachele Lanzillotto 2013-02-01 A 1960s Bronx tomboy learns how to survive her brutal but humorous Italian family and all the rest that life throws her. The harder you hit the pavement, the higher you fly. This vivid memoir speaks the intense truth of a Bronx tomboy whose 1960s girlhood was marked by her father's lullabies laced with his dissociative memories of combat in World War II. At four years old, Annie Rachele Lanzillotto bounced her Spaldeen on the stoop and watched the boys play stickball

in the street; inside, she hid silver teaspoons behind the heat pipes to tap calls for help while her father beat her mother. At eighteen, on the edge of ambitious freedom, her studies at Brown University were halted by the growth of a massive tumor inside her chest. Thus began a wild, truth-seeking journey for survival, fueled by the lessons of lasagna vows, and Spaldeen ascensions. From the stoops of the Bronx to cross-dressing on the streets of Egypt, from the cancer ward at Memorial Sloan-Kettering to New York City's gay club scene of the '80s, this poignant and authentic story takes us from underneath the dining room table to the stoop, the sidewalk, the street, and, ultimately, out into the wide world of immigration, gay subculture, cancer treatment, mental illness, gender dynamics, drug addiction, domestic violence, and a vast array of Italian American characters. With a quintessential New Yorker as narrator and guide, this journey crescendos in a reluctant return home to the timeless wisdom of a peasant, immigrant grandmother, Rosa Marsico Petruzzelli, who shows us the sweetest essence of soul.

Odes Sharon Olds 2016-09-20 Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Listening to Images Tina M. Campt 2017-03-17 In *Listening to Images* Tina M. Campt explores a way of listening closely to photography, engaging with lost archives of historically dismissed photographs of black subjects taken throughout the black diaspora. Engaging with photographs through sound, Campt looks beyond what one usually sees and attunes her senses to the other affective frequencies through which these photographs register. She hears in these photos—which range from late nineteenth-century ethnographic photographs of rural African women and photographs taken in an early twentieth-century Cape Town prison to postwar passport photographs in Birmingham, England and 1960s mug shots of the Freedom Riders—a quiet intensity and quotidian practices of refusal. Originally intended to dehumanize, police, and restrict their subjects, these photographs convey the softly buzzing tension of colonialism, the low hum of resistance and subversion, and the anticipation and performance of a future that has yet to happen. Engaging with discourses of fugitivity, black futurity, and black feminist theory, Campt takes these tools of colonialism and repurposes them, hearing and sharing their moments of refusal, rupture, and imagination.

Critical Victimology R. I. Mawby 1994-03-07 Drawing on a wealth of local, national and international sources, unpublished documents and original research, this book provides a theoretical and practical critique of victimology. The authors outline and discuss the issues facing victims today and address the

fundamental question: How can we best ensure justice for victims, while at the same time preserving the rights of defendants? The search for answers raises other key questions: What are the risks of crime and do they vary from country to country? What is the impact of crime on the victim? How are victims treated by police, welfare agencies and courts? Why have governments become interested in victims? Can we learn from the experiences of policies in other nations? H

Parasitology and Microbiology Research Gilberto Antonio Bastidas Pacheco 2020-06-17 The study of both unicellular and multicellular living beings and the diseases they produce from a biological point of view requires constant review of their relationship with their host and environment, given their indisputable sanitary importance. In this sense, in parasitology and microbiology, updated and concise information on life cycle, taxonomic classification, clinical manifestations, diagnosis, treatment, epidemiological behavior, and control measures is of vital importance. This is what we pursue with this book. The approach to parasitology and microbiology and the research that is carried out on it is unquestionable because the associations between life forms have been present from the very beginning of life. Research in parasitology and microbiology is necessary and indispensable for controlling diseases that affect much of the world with serious economic and social consequences. The challenge is to promote research to keep these diseases at bay. This book shows what has been done up to now and what can be done in the future to combat infectious diseases.
