iconoclastic as Lee's approach to martial arts, Bowman provides an original and exhilarating account of Lee as 'cultural event'. No one has done a better job of explaining why the martial arts 'legend' remains such an important and provocative figure."—Leon Hunt (Brunel University), author of Kung Fu Cult Masters: From Bruce Lee to Crouching Tiger. "Taking on Martin Heidegger and Slavoj Žižek as well as drawing on Jacques Derrida, Michel Foucault, Guy Debord, Jacques Rancière, Rey Chow, and Stuart Hall, among others, Bowman shows how Bruce Lee 'speaks' to the philosophical debates that frame our understanding of global popular culture today. surrounding our ability to 'know' Bruce Lee, he does a remarkable job of articulating why Bruce Lee remains an essential force within not only world cinema but global culture — both 'high' and 'low.' Armoured with his philosophical nunchakus, Bowman goes to battle with anyone who may doubt Lee's ongoing importance, and this book will undoubtedly become essential reading for everyone (from philosopher to kung fu practitioner) interested in popular culture and Asian cinema." —Gina Marchetti (University of Hong Kong), author of *Romance and the "Yellow Peril": Race, Sex and Discursive Strategies in Hollywood Fiction*, and *From Tian'anmen to Times Square: Transnational China and the Chinese Diaspora on Global Screens, 1989-1997*. *Theorizing Bruce Lee* is

a unique work, which uses cultural theory to analyse and assess Bruce Lee, and uses Bruce Lee to analyse and assess cultural theory. Lee is shown to be a major 'event' in both global film and global popular culture — a figure who is central to many intercultural encounters, texts, and practices. Many key elements of film and cultural theory are employed to theorize Bruce Lee, and Lee is shown to be a complex and consequential — multimedia, multidisciplinary and multicultural phenomenon. *Theorizing Bruce Lee* is essential reading for anyone interested in Bruce Lee in popular culture and as an object of academic study.

*Bose: The Indian Samurai - Netaji and the Ina a Military Assessment* G. D. Bakshi 2016-05-02  
This is a path breaking book by a former General that seeks to evaluate Netaji Subhash Chandra Bose as a military leader and indeed, the First Supreme Commander of India. Netaji was instrumental in India getting her freedom. It is the first professional attempt to evaluate the military performance of the Indian National Army (INA) in World War-II and its significant impact on the Freedom Struggle. The book has gone into great details about each

engagement fought by the INA. This meticulously researched book seeks to reopen a significant historical debate about how India got her freedom. A succession of court historians have tried to craft a narrative that India had obtained her freedom entirely by the soft power of Ahimsa/non-violence and Satyagraha; and that hard power had no role to play whatsoever. There is also the dark secret about what finally happened to Bose. The author is pessimistic about the unearthing of the real truth as many critical Indian files have been destroyed. To get at the whole truth, we need access to Russian, Japanese and British archives. The author has analysed a wealth of data. It leaves us with some most disconcerting and horrible speculations

about what happened to the man who in truth, got us our freedom. His legacy was buried and marginalised by a set of non-violent pretenders who expended inordinate amounts of energy in fighting the ghosts of the INA. Today, India as a nation needs to squarely face up to the truth. Bose, indeed was the icon of Indian nationalism. Today, we need to revive his legacy in the backdrop of an ugly debate that seeks to splinter the nation state in India under the pretext of free speech. Treason and treachery continue to flourish in India. That is why we need to revive the ardent nationalism of Bose - an Indian Samurai par excellence.

### Japan in the Fascist Era

E. Reynolds 2004-07-15

In contrast to Euro-centric works on comparative fascism that set Japan apart from Germany and Italy, this book emphasizes parallels between Japan and its Axis Allies. Romantic nationalist ideologies attracted a strong following in all three nations as they emerged as modern states in the late 1800s. In both Germany and Japan these were, from the beginning, strongly racial in nature.

Spurred by grievances against the 'status quo' powers, all three took up aggressive policies in the 1930s, producing a short-lived 'fascist era'. Japan's prominent role demands a broader perspective.

### **Myth and Masculinity in the Japanese Cinema**

Isolde Standish

2013-11-05 This study argues that in Japanese popular cinema the 'tragic hero' narrative is an archetypal plot-structure upon which male genres, such as the war-retro and yakuza

films are based. Two central questions in relation to these post-war Japanese film genres and historical consciousness are addressed: What is the relationship between history, myth and memory? And how are individual subjectivities defined in relation to the past? The book examines the role of the 'tragic hero' narrative as a figurative structure through which the Japanese people could interpret the events of World War II and defeat, offering spectators an avenue of exculpation from a foreign-imposed sense of guilt. Also considered is the fantasy world of the nagare-mono (drifter) or yakuza film. It is suggested that one of the reasons for the great popularity of these films in the 1960s and 1970s

on Zen, this book is a valuable source for those wishing to understand its concepts in the context of Japanese life and art. In simple, often poetic, language, Daisetz Suzuki describes what Zen is, how it evolved, and how its emphasis on primitive simplicity and self-effacement have helped to shape an aesthetics found throughout Japanese culture. He explores the surprising role of Zen in the philosophy of the samurai, and subtly portrays the relationship between Zen and swordsmanship, haiku, tea ceremonies, and the Japanese love of nature. Suzuki's contemplative discussion is enhanced by anecdotes, poetry, and illustrations showing silk screens, calligraphy, and examples of architecture.
